EQUIPMENT SUPPLY & MAINTENANCE PROGRAM

INCREDIBLE WATER EVERY SWIM. SAME PRICE EVERY MONTH.

ChlorKing is leading the way to better, safer water and it's never been easier to get started. Thanks to our new 36- and 60-month equipment supply and maintenance programs, you can get the system you need, along with all maintenance and repairs all for a fixed monthly price.

Whether you're looking to save money and generate chlorine on-site with our leading NEX-GEN, switch your pool to salt chlorination with our military grade CHLOR SM or completely take control of chloramines with our Sentry Ultraviolet Light system, we can get you up and running with no up front costs and no surprises in your budget.

THE EASIEST WAY TO MANAGE YOUR BUDGET AND YOUR WATER

How it Works

The ChlorKing 36- and 60-month Equipment Supply and Maintenance Programs allow you to enjoy the benefits of our industry-leading equipment at a fixed monthly cost without any hassles or worries.

The process is simple:

- Work with your ChlorKing sales rep to determine your needs.
- Select a 36- or 60-month plan.
- ChlorKing ships the equipment and installs it.
- You pay a pre-determined monthly fee for the contract period.
- ChlorKing handles all repairs, parts and service.
- At the end of the contract, you have the option to buy the equipment outright for \$1.00 or have new ChlorKing equipment installed for a new 36- or 60-month period.
- You enjoy soft, safe, spa-like water without any large capital outlay and have peace of mind that it's all taken care of.

The Benefits

In addition to generating incredible water and managing monthly budgets, the program can also help you:

- **Lower Costs:** Our NEX-GEN onsite chlorine generator also reduces the costs associated with the risks and liabilities of transporting and storing chlorine—a toxic substance.
- **Enjoy Peace of Mind:** Efficient, reliable and dependable, ChlorKing equipment delivers outstanding performance. Our maintenance plan will ensure that the machines are running at optimum performance.
- **Protect the Environment:** ChlorKing systems reduce environmental impact by eliminating traditional chlorine and utilizing your own pool water.
- **Deliver Better Swims:** Swimmers today are demanding softer, safer swims and it's easy to give them what they want.

Safer water through smarter technology.

ChlorKing pioneered on-site chlorine generating technology in the 1970s. Realizing the potential for swimming pools and commercial applications, the company began generating "ultimate water" with simple, yet highly advanced technology. Today, ChlorKing® leads the way in commercial saline chlorination and is consistently seeking new frontiers in sanitizing solutions including ultraviolet light technology and their NEX-GEN® pH onsite chlorine generators. These environmentally friendly solutions are changing the way we treat H₂O.
