## **HYPO-mini**

# Producing a Hypochlorous solution on-site has never been easier

#### The HYPO-mini

The HYPO mini is a compact entry level offering for generating hypochlorous onsite. Compact does not mean weaker. The HYPO mini packs a heavyweight punch! The HYPO mini rests on the foundation of the ChlorKing 20 year tried and tested electrolytic cell. Customers can be assured they are getting a powerful hypochlorous solution at either 200 or 500ppm concentration in as little as 8 minutes! There is a 3 year limited warranty on the HYPO mini and 2,000 hours of life on the cell. At just 8 cents to produce a gallon of hypochlorous ... no brainer! The HYPO mini is a thing of duty and a very hard worker. Thank you for your business and we look forward to working with you.

#### Uses

- · Bacteria inactivation
- Virus inactivation
- Cleaning food surface preparation areas
- Tile floor cleaning
- Any situation where sodium hypochlorite or calcium hypochlorite have traditionally been used.

ChlorKing pioneered on-site chlorine generating technology in the 1970's. Realizing the potential for swimming pools and commercial applications, the company began generating "ultimate water" with simple, yet highly advanced technology. Today, ChlorKing leads the way in commercial saline chlorination and is consistently seeking new frontiers in sanitizing solutions including ultraviolet light technology and their NEX-GEN pH onsite chlorine generators. These environmentally friendly solutions are changing the way we treat H<sup>2</sup>O.

Safer water through smarter technology.
