

HYPO-mini

Producing a Hypochlorous solution on-site has never been easier

The HYPO-mini

The HYPO mini is a compact entry level offering for generating hypochlorous onsite. Compact does not mean weaker. The HYPO mini packs a heavyweight punch! The HYPO mini rests on the foundation of the ChlorKing 20 year tried and tested electrolytic cell. Customers can be assured they are getting a powerful hypochlorous solution at either 200 or 500ppm concentration in as little as 8 minutes! There is a 3 limited warranty on the HYPO mini and 2,000 hours of life on the cell. At just 8 cents to produce a gallon of hypochlorous ... no brainer! The HYPO mini is a thing of duty and a very hard worker. Thank you for your business and we look forward to working with you.

ChlorKing pioneered on-site chlorine generating technology in the 1970's. Realizing the potential for swimming pools and commercial applications, the company began generating "ultimate water" with simple, yet highly advanced technology. Today, ChlorKing® leads the way in commercial saline chlorination and is consistently seeking new frontiers in sanitizing solutions including ultraviolet light technology and their NEX-GEN® pH onsite chlorine generators. These environmentally friendly solutions are changing the way we treat H₂O.

Safer water through smarter technology.
